Introduction to Gmail

Congratulations!
You've successfully signed up for Gmail. Here are three things you really should know before you get started.

Archive, don't delete
With more than 2,500 megabytes of free storage, you never need to delete another email. Just archive everything and use Gmail's search to find what you need.

Enjoy the conversation
Each item in your Inbox is more than an email. It's an entire conversation, containing the original note and all the replies to it. When a new message arrives, the whole conversation moves to the top of your inbox.

Great search, less filing
Never file another message or create another folder. Use Gmail's built-in Google search to quickly find the email you need.
