

SUNGAI KITA, IKAN KITA

OUR RIVERS, OUR FISHES

TAHUKAH ANDA SUNGAI KITA DIDOMINASI OLEH SPESIES INVASIF?

Do you know that our river is dominated with invasive species?

SPESIES ASING/INVASIF

Invasive species

Spesies invasif adalah tumbuhan, haiwan, patogen atau organisma lain yang asing kepada ekosistem yang boleh menjejaskan ekonomi, alam sekitar dan kesihatan manusia.

Invasive alien species are plants, animals, pathogens and other organisms that are non-natives introduced to an ecosystem which may cause economic or environmental harm or adversely affect human health.

APA YANG BOLEH ANDA LAKUKAN?

What can you do to help?

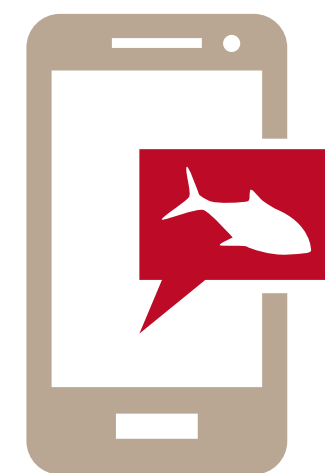

Jangan lepaskan spesies asing ke badan air.

Do not release invasive species into our waterways.

Jangan gunakan spesies asing sebagai umpan.

Do not use invasive species as bait.

Laporkan jika melihat seseorang melepaskan spesies asing ke badan air kita.

Report sightings of people releasing invasive species into our waterways.

Menggalakkan/melepaskan spesies asli untuk pelbagai acara atau sebab. Rujuk Jabatan Perikanan tentang spesies yang sesuai.

Promote/release local species for any event or reason. Check with the Department of Fisheries on suitable species.

Pastikan kualiti air sungai sesuai untuk spesies asli dan kekalkannya.

Ensure the river water quality is suitable for the local species and maintain it.
